TYSONS

The soil excavation
costs are some \$16-20
million.

~~COST~~
~~COST~~ PROPOSAL FOR SOIL STABILIZATION
FOR THE NATION AREA

EO 5. THE FEDERAL R&D PROCESS IS
WE ON IT WAY.

WE NEED A MORE "FORMAL" PROPOSAL
RATHER THAN THE ~~PROPOSAL~~

The proposal is to use a
combined injection of extraction
using "AIR", ~~high~~ volume

~~PROPOSAL~~ ACCESS QUESTION - OK, IF
1) IF FEDERALITY DON'T HAVE
ACCESS

2) IF IT DOES NOT INTERFERE
WITH OUR ACTION (TOM V. WE
WILL NOT BE DOING ANYTHING ON THE
SITE UNTIL EARLY NEXT YEAR & I.
THE PROJECT WOULD NOT BE A PRESCONTY
ITEM, HOWEVER, R&D II NEEDS TO DO FORWARD
TO DEFINE WHAT SOIL NEEDS TO BE TREATED;
IT CAN BE ATTACHED LATER, IF NECESSARY)

TOM V. THE ACTIONS MUST BE USED IN
ACCORDANCE WITH RCRA (THE CO IS ACTIVELY INVOLVED)
THEY IS LITTLE IMPACT ON THE DEEP AQUIFERS)

Down to
Bank known
2. ROD
is the
A Path
Not

The Y contend that the Deed
Applies to is SO BADLY CONTAMINATED
THAT OUR 3-20 MILLION SOIL REMOVAL
PROPOSAL WILL DO LITTLE GOOD

THE PROPOSAL WILL PROBABLY NOT
LOWER THE SOIL CONTAMINATION TO OUR
PRESENT "ACTION LEVELS".

THE SHALLOW AQUIFER, AT THE PROPOSED
LINE IS THE BASIS OF THE "ACTION LEVELS"

THE ARE FEATURES WHICH CONCERN
THE Deed Acquired

WE REJECTED "CAPPING" THE LINES
BECAUSE OF THE STEEP SLOPES INVOLVED
(COULD NOT TECHNICALLY "ANCHOR" THE CAP)

* TOM CAN GO CLEAR UP TO BID
OPENING BEFORE A FINAL DECISION IS
MADE (COULD BE SEVERAL MONTHS
AFTER REQUESTED). THE RPS
HAVE THIS TIME TO DO THEIR PILOT
STUDY.

HOWEVER IT MUST MEET THE
ACTION LEVEL'S & BE TECHNICALLY FEASIBLE
ALSO THEY MUST KNOW WHAT, IF ANY
IMPACT THIS PROCESS WILL HAVE ON THE
LOCAL & STATE

When we get this written TOM
WILL COMPLAIN THIS POSITION IS MORE FOLLOWED

3.1

Dom V.

we are right on both Rd 1 & II

unless THEY (RDS) show as otherwise
WITH TECHNICAL FACTS, we will
stop & address accordingly.

Subject: Application of Soil Gas Stripping at the
Tysons Dump Site

At the request of Ciba-Geigy Corp., I
have set-up a meeting for next Tuesday (10-7-86)
in Room 13c @ 1:15 PM, in which Dr. George
Mayhew (Pres. of Ciba-Dilling) will make a
presentation of their proposed pilot study of
soil gas stripping for the lagoon areas.
Please try to attend and "bring questions!"

Addresses

- K. Hodgkiss
- E. Skernis
- E. Shoenen
- J. Spike

Thanks

- D. DiShillio
- W. Graham
- B. Moltz
- M. Snopashy

- S. Wassersug
- R. Schrecongost
